

Land Document Verification Report

Verification ID: 9df95732-e811-4a54-ba84-ab67651c5d6b | Pipeline: 2.0 | Completed: 2026-07-13T08:25:54.065990+00:00

Verification status	Not Verified	Decision confidence	35.5%
Owner name	Detalls	Survey number	Not extracted
Village	HOBLI: Hebbal-2	Land area	Details
Trusted similarity	30.7%	Fraud risk	100.0% (high)

Verification evidence

Evidence	Status / score	Engine
OCR	91.8%	paddleocr
Trusted knowledge base	Matched	field_similarity
Ledger hash	Not found	local_ledger
Duplicate ownership	completed	sentence_bert_faiss
Boundary	not applicable	Not available

Decision basis

- Required fields were not independently extracted
- Trusted-record similarity is below the verification threshold
- Risk signals require review

Review signals

- Survey Number differs from the trusted record
- Owner Name differs from the trusted record
- Land Area differs from the trusted record
- Village differs from the trusted record
- Survey Number could not be extracted
- Autoencoder flagged reconstruction anomaly (excess loss: 0.2966)

Integrity and provenance

Document SHA-256	a5238e2c52c88f82588f662912311287e6cf6826afd5d180a1ae48c3b9b1ea4c
Ledger transaction	Not found
Application integrity seal	4f8257c01a4ac646373157b1ea6235e83fdc68ed1a2e01ad7d202bfba70aee07

Runtime limitations: LayoutLMv3/IndicBERT inference is not configured; label extraction fallback was used.; The local ledger adapter is not a Hyperledger Fabric network.

This report is decision support based on the configured trusted dataset. The application integrity seal detects changes to this system record; it is not a government digital signature, title certificate, or legal opinion.
